President's Report

By Mary Sutton

Hello Lake Shannon Residents,

The Spring Annual Membership Meeting will be held on June 7, 2023, at 6:30 pm at the Deerfield Township Hall. Sign-in will start at 6:00 pm. I wanted to take this opportunity to recognize the board members who volunteer their time for the community. Since Lynne Dodson joined the board last summer, she has distributed multiple communications in order to keep the membership updated and informed and to deliver on the board's desire to be more transparent. We are a fairly new board, and every board member spends countless hours performing their roles in order to keep all of the services running effortlessly and to do their part to preserve this beautiful community. You can see evidence of the hard work when you drive around the lake and see the new gate and lighting improvements at the boat launch, the swim park fence, along with other park improvements. I love the shamrocks marking the association parks. Others are working behind the scenes ensuring that the dues are collected, that the building projects around the lake conform to our bylaws, that our dam is operational and re-starting the dredging project.

Jeff Schram has made the decision not to seek another board term. I would like to thank Jeff for his multiple years of service as our Treasurer-Accounts Payable.

Jeff's expertise in his role has provided us with sound financial planning as he has guided us through the annual budget process. Jeff has been the calm voice of reason throughout his tenure and his presence will be missed.

Lake Treatment Notice	22,23

I would also like to encourage you to support Jim Greiner as he brings forward some ideas to maintain and preserve our roads. I could go on and on, but this newsletter will demonstrate the amount of work that this board has accomplished. As a community, we are very lucky to have such talented individuals willing to volunteer their time to serve on the board.

As per our bylaws, every year five trustee positions are open. The board has nominated the following for the open positions – Theresa Rago, Jim Greiner, and Lynne Dodson. Serving on the board does require a fair amount of time and it does require you to attend the board meetings. It's important that we have a majority of the members at the meetings so that we can entertain different perspectives as issues are brought before the board.

The board is bringing forward a new bylaw, Article XVII which will allow the board, upon approval from the membership, to be able to sell or acquire properties. LSA is formed under the Summer Resorts Act, and the act requires a bylaw to sell or dispose of property.

Article XVII – Acquisition and Disposition of Property.

The Board of Trustees, as approved by majority vote of the members of the Association voting thereon at any general, annual, or special meeting, has the authority to acquire real and personal property on behalf of the Association and to sell, mortgage, grant, convey and lease real and personal property owned by the Association.

The President of the Board of Trustees is empowered with the authority to execute all documents deemed necessary in effectuating this authority. Any property acquired must be used for general Association purposes only. Excluded from this authority is the sale of islands and parks that are owned by the Association.

The board is asking for permission from the membership to market the properties on Dean Rd. which were Quit Claimed to LSA from Sylvia Cole in 1989. There are two parcels on Dean Road that the board would like to sell. One parcel is 4.25 acres, and the other parcel is 1.43 acres. The membership would be able to put restrictions on the sale of the property.

The sales proceeds could be used to fund future needs of the membership such as dredging or other capital improvements. The membership could also vote to retain some of the funds as a reserve.

Upon marketing the properties, the board will bring forward to the membership the offers it has received so that the membership can vote on which proposal to accept at that time. At this time, the membership will be voting on the approval of the bylaw and approval to market the properties.

Please remember to obtain your E.G.L.E. permits when installing seawalls and to respect our bylaws.

Thank you and please have a safe and enjoyable summer!

Vice President's Report (5 Year Planning & Dredging Committee)

By Theresa Rago

The Dredging Committee continues to work on this project for a Fall 2023 completion date. As previously announced, the vote passed by a large majority to have a special assessment which will be billed in July and collected in August of \$372 per property. We are working with Superior Dredging on this project along with EGLE, Livingston County, Tyrone Township, the Roads Commission, SESC, etc.

We are very thankful and appreciative that Harold Cole and Scott Velliky offered their property to place the dredging silt into a basin. The new method uses a Hopper Barge where the silt material is excavated from the coves (Surfwood, Ore Knob, Turtle/Brandon Island and Driftwood) then placed into a truck and taken to the basin site. The actual dredging dates are not finalized. As soon as we know this information, it will be communicated to our HOA.

Trash Service: The changeover from Waste Management to Dougie's Disposal has gone very smoothly and also saved us approximately \$56,000. We had 14 snowbirds who participated in giving back to our community about \$1,400. This money can be used toward other Lake Shannon improvements.

Volunteers Needed for Future Planning:

The board is looking for Chairpersons and volunteers to assist in forming two committees to do a deep dive into the drains surrounding the lake and future dredging. Jim Greiner has done some research, which only scratched the surface. The board recognizes that, in order to fully address the current and potential issues, a thorough, deep dive analysis needs to be conducted. Please contact Theresa if you are interested at lsa.vp@lake-shannon.com or (313) 580-9022

Treasury Receivable

By Linda Gibbs

Thanks to all the Lake Shannon Residents who took advantage of the \$50.00 discount by paying their dues early, (before March 31, 2023). For those who still owe, please remember to pay your Lake Shannon dues on or before June 30th, 2023, to avoid penalties and loss of specific services. Any overdue HOA fee after September 1, 2023, will result in a lien filed against properties at a cost of 7% and a release fee of \$150.00.

If you have any questions, please call or email Linda Gibbs at LSA.treasuryreceivable@lake-shannon.com (810) 348-0781.

Marsha Passino is our Assistant Treasurer, and her email is Marsha.m.passino@gmail.com.

Roads Committee

By Jim Greiner

Everyone has an opinion about our roads!

Overall, the opinions seem to be positive. Unless... there is a crack in the road in front of your house or the edge of the road is breaking up! Thankfully, those are still just occasional problems on the Lake Shannon roads, but they are signs that our roads are getting older.

So, what do we do? The roads have been paved twice, first in 1987 and again in 2018. Before the second paving, there was a lot of debate as to whether the road conditions were bad enough to repave or not. There are still residents who think that repaving should have been delayed a while!

The major question was whether we should do a complete reconstruction of the roads, which would cost multiple millions of dollars, or just pave over the existing foundation for a lot less -- \$1.6 million. We chose the less expensive option, and that option was expected to last for 20 years, or until around 2038.

After the repaving project was approved by the Association, it was then turned over to the county for management and construction work. Unfortunately, in the middle of the project, there was a general strike among all Michigan construction workers and the work was delayed and not finished until late in the year. It is thought that this may have caused a less than optimal completion, but there was no choice.

It has now been five years since the second paving, and we have five more years before the road bonds are paid off and 15 more years before we may need to do it all over again. As we drive around the lake and see some cracks, pitting, and erosion, the question now is how to forestall the next repaving, keep the roads in better condition (and consequently, keep our cars in better condition), as well as save ourselves some money.

The Road Committee of the LSA Board unanimously feels it is critical to anticipate issues and perform the necessary maintenance to accomplish the above goals. While anyone can see the pavement issues after they occur, it requires specialized knowledge of civil engineering to understand their current condition, accurately predict their deterioration as they age, and plan for the best upkeep of our roads in advance.

Sometimes, you must spend money today to save money in the future. With this in mind, and concern for adequate maintenance of our roads, we propose that the Lake Shannon Association hire Boss Engineering of Howell to establish a road maintenance plan for us.

As it turns out, Boss Engineering was involved in the original paving of our roads in 1987, so is not only a local company, but has actual experience with our specific conditions. They have a positive working relationship with the Livingston County Road Commission (LCRC), and can, therefore, provide effective coordination with the LCRC on our behalf. As we would like to use LCRC resources whenever possible for normal and preventative maintenance, this coordination is essential.

To this end, we propose spending \$6,500 from the LSA treasury budget to develop this plan for road management. This cost amounts to about \$16 per property, though you would not be billed for it as it has already been collected from dues. This \$16 is a tiny fraction of the amount each of us would be expected to pay if we needed to repave the roads in the near future. This plan will provide a "roadmap" for the future as Board members and lake resident's change.

Please review the presentation in the Roads section of the LSA website. You will see how we studied the situation a year ago. Due to our schedule of Association meetings, the proposal had to wait nine months before asking for LSA approval.

We urge your approval at the June 8 meeting and expect to propose a road remediation project in the fall.

In the meantime, the Road Committee asks for input from all residents about safety and road maintenance issues.

Feel free to contact the Road Committee Chairman, Jim Greiner, at 810-360-5967 or, preferably, document issues by sending him an email message at oreknob@aol.com.

Jim will work with all the appropriate engineering managers at the Road Commission to obtain their assistance.

Use the link below to access the Road Issue Report.

[Roads - WELCOME TO LAKE SHANNON! \(lake-shannon.com\)](http://lake-shannon.com)

Architectural Control Committee

By Wayne Biernacki

As the spring thaw is over, please consider when doing any home exterior or property changes to look on [LSA Website https://www.lake-shannon.com/by-laws.html](https://www.lake-shannon.com/by-laws.html) and become familiar with the applicable Bylaws that could be involved. [SECTION VIII/ Sections 1 through 5.](#)

What needs to be submitted to ACC for approval:

- New construction (including additions)
- Additions
- Changing home exterior material
- Gazebos (per bylaws)
- If removing 3 or more (6" diameter at 4.5ft from ground) Trees. But removal of diseased or dead trees does NOT require ACC approval.
- Fences/Animal Pens/Dog Kennels (per bylaws)
- Any new construction between the rear lot line or water's edge, and main

residence that is greater than 3 feet in height

Sea Walls are required to have a permit from EGLE before construction. The structure contacting the water surface must be faced with unbonded stone or irregular material to help with impinging wake reflection. Any other alternative design would require pre-ACC approval.

Please review the exact bylaw on the website (Article VIII/Section 5/ #10 SEAWALLS) for exact requirement specifications.

Maintenance items like replacing existing Roofs, Windows, Driveways etc. will NOT need ACC approval. For further information and other items please read the LSA Bylaws (found on the [LSA website https://www.lake-shannon.com/by-laws.html](https://www.lake-shannon.com/by-laws.html))

DAM/Lake Environmental & Weed Control

By Lynne Dodson on behalf of the Board.

As a follow-up to the Dam Report published with the November Newsletter the Board is still awaiting recommendations from EGLE.

The following recommendations have been completed or are in process:

Electrical: Scott Mroz completed the electrical issues in April with the upgrade of the new boat launch gate, which meets current electrical standards.

Debris Pile Spillway: The spillway will no longer be a dumping ground. We are working on signage and gate solutions. The debris currently in the spillway will be removed/burned by the end of June.

We will work with our contractor in the future on a temporary storage area for logs pulled from the lake as they dry, until they can be removed.

Safety issues: The Board disagrees with the safety handrail, as the Dam is private property and marked no trespassing. The Association has no history of negligence pertaining to the Dam and will take EGLE recommendations into consideration once received.

Tree Removal & Rip Rap: We are currently receiving quotes regarding tree removal and for rip rap to be completed either in the fall once the lake level is down or early spring 2024 before the lake level rises.

If you do have any questions or would like to understand the workings of our Lake Shannon dam, please call Jeff Coates at (810) 516-5250.

Boat Safety Stickers - Keys - Launch Security - Mosquito Control

By Scott Mroz 248.459.9559

lsa.launchsecurity@lake-shannon.com

It's going to be another great year on the lake! We have been very busy so far this year and there is plenty more to come!

Thank you to the membership for all of your support during our construction projects. An update on the boat launch project the motorized gate is completed, and I am happy to report that it came in within the original budget. I wanted to thank my girlfriend Katy and Sean Spinneweber for helping me pull the power wiring and camera/control cabling. I installed all the power and control cabling in PVC conduit buried at 18". There are quote requests to install and reconfigure the bollards to protect the gate structure. The gate controls utilize the same access cards as were previously distributed; you only need to swipe the key in and once the sensors are cleared it automatically closes after about 60 seconds. There are several sensors one is a barrier type, the second is a mass sensor which has a wide view angle and finally it's pressure sensitive. There is also a "yelp" sensor which in the event of an emergency this is a setting on the sirens which when activated it will open the gate and keep it open until it resets.

Finally, the next project that I am exploring is replacing the fence in the parking corral along with installation of another motorized gate and install 3" of 21-AA limestone gravel mix in the corral to address the muddy spots and poor drainage, once the project is developed and discussed among the 3 trustees, we will present at the fall membership meeting.

Fireworks are scheduled for Saturday July 1st, 2023, the permit has been applied for and pending approval by the township and Hartland Fire authority. We look forward to another great show! (Refer to page 21 for the Fireworks Observation Guide)

Mosquito spraying is on an as needed basis and as the weather changes will be on a regularly scheduled basis. per our contract all members can request special treatment if you are having an event at your property. They request 5 business day notice prior to your event to schedule having personnel onsite. The homeowner must call the office to schedule and provide your address/ property location and notify them you are a Lake Shannon resident. The contractor also provides a call service for you to be notified on the evening of regularly scheduled treatments of the neighborhood.

You can call the office or put in a request on their website. www.advancedmosquito.com
877.276.4714

Boat stickers/ registration per our bylaws you are required to obtain decals to display on all of your motorized watercraft, to obtain these please call/ text me you can also email me, you can text a photo of your current registration and I will get you setup and let you know when you can come pick them up. I try my best to accommodate immediate requests but please give me 5 days to fulfill the requests. The watercraft must be registered to the property owner and have a current Michigan registration, guest boats are not allowed, if you regularly take your boat to other bodies of water, please clean and drain water from livewell and bilge or treat with a bleach mixture to minimize transmission of invasive aquatic life. You can refer to the DNR website for recommendations on cleaning practices.

Water safety please refer to the www.michigan.gov website for boating safety and laws regarding operation of motorized watercraft. If you observe unsafe activity as a

member, you are within your rights to approach anyone on the lake and remind them of proper boating safety.

If you have any questions or concerns, please feel free to reach out to me or any other board trustee and we will do our best to accommodate requests and concerns. Have a great summer and I look forward to seeing everyone.

Parks and Islands

By Lori Saunders

The Sylvia Cole Swim Park gate lock will be reworked by the week of May 21. Due to issues with the current lock, Justice Fence will be placing a double lock and plexiglass, so that the gate cannot be opened by reaching through. When using the park, please secure the gate after entering and exiting.

The rocking projects at Killarney, Galway Bay, North and South Blarney (Double Islands), which were approved at previous membership meetings, have been delayed due to lack of ice the past winter. These will be completed this summer.

The parks and islands will be cleaned up as much as possible, with removal of brush, adding some flowering bushes, plants, etc. The plan is to add a few more steps at Tern Park to curve to the left toward the cove, as it is still pretty steep at the end of the current steps. All of the parks will have permanent markers placed; 4x4 shamrock posts will mark the park boundaries at the roadside, middle and lakeside, so the park property line will be clear for those using the parks.

So far, seven park benches have been donated and will be dispersed around the lake at the parks and islands. Thank you to the following donors: Pioneer Cabinetry (4), Schroeder Family, Lake Shannon Sportsmen's Club and the Family & Friends of Ted Ostepchuk.

We have new No Wake Zone signs with our new shamrock theme. The old, dilapidated signs will be replaced with the new ones. Please keep speeds down while motoring in all of the coves and no wake zone areas.

If you have any questions or suggestions, please contact me at LSA.ParksIslands@Lake-Shannon.com

Corresponding Secretary

By Lynne Dodson

PARK BOUNDARIES

As the LSA Park boundaries are in the process of being marked. Let's remember that the parks belong to "all Association Members" and provide access to off-lake homeowners. Marking the boundaries ensures all off-lake homeowners are aware of the park boundaries.

Let's be respectful to each other when utilizing the parks, making sure we clean up after enjoying the park and respect the neighboring property owner's privacy.

Neighboring property owners are reminded to follow Article IX Association Property Management; Section 2; no dock. Raft, or liked structure shall be erected on or in any park area, out lot or island. Please ensure boats and docks do not encroach on association property or personal property is not stored on association property.

Newsletters/Welcoming Committee

It's the time of year when new homeowners move into our beautiful oasis. If you have a new neighbor moving in, please contact the Welcoming Committee led by Terry Lee at (810) 423-3234. Terry Lee and Shelly Hipple are longtime residents of Lake Shannon, raising their families here.

The Welcoming Committee will provide new Homeowners with a "Welcome Packet" which includes our bylaws, phone directory, information from the Sportsmen Club, Ski Club and other information regarding our community. Their contact information is also on the LSA Website, under the Board Tab.

LSA Website: I am currently in the process of updating the LSA Website and will keep you posted on the changes. The most recent change is moving the 1-page updates to the Newsletter page. This was effective 5/6/2023. It made sense as these are Newsletters. I will leave the tab out there for a few more months.

The LSA website can be found at <https://www.lake-shannon.com>

The website provides the membership with access to the calendar of activities, contact information for the Board, Newsletters, Dam, Trash Services, Announcements, Contact Us, various Committee Pages, Michigan Boating & Regulations and Clubs.

Lake Shannon Facebook and Hotline is managed by a group of volunteers providing social connection to the LSA Community. They are not associated with the HOA Board and reserve the right to remove any post which is negative in nature or inappropriate.

The "Hotline" is managed by Kim Katch, please use the following contact for the Hotline: lakeshannon@googlegroups.com The website calendar is managed by the hotline coordinator, and contact information is below the calendar. If you are looking to sell or post an announcement to the community this is a great way to get your information out to the membership.

The Facebook Page is managed by several Administrators and can found at www.facebook.com/groups/322127227893288
[Lake Shannon Grapevine | Facebook](#)

Thank you to the administrators: Kim Katch, Vana Shelton, Heidi Parrish and Dana Blasko.

Mark Your Calendar Special Dates

- Trash Service Delayed one day Tuesday, May 30th due to Memorial Day.
- Free Fishing Weekend: Saturday, June 10th and Sunday, June 11th.
- Garage Sale Thursday June 22 - Sunday June 25, 2023. Contact Stefanny Wright-Palm @ stefannyw333@hotmail.com
- Lake Shannon Fireworks, Saturday, July 1st at dusk. (Refer to Page 21 Fireworks Observation Map)

Goose Roundup

By Lynne Dodson on behalf of Dan Karagozian

Every year Dan Karagozian and a group of fellow Association and Sportsmen Club Members collect goose eggs in the spring, from April 8th through May 5th to reduce the goose population on Lake Shannon. This year Dan and his team surveyed the lake 3 times and set foot on every island and association property. They collect 61 eggs during this time period. Dan indicated the results were similar to last year that all eggs found are on our islands.

39% of the eggs harvested are off Leprechaun Island. Dan mentioned this island is the most overgrown island and feels if it is cleaned up it would not be so inviting to the geese.

Dan also mentioned that due to Bird Influenza the State of Michigan there will not be a goose roundup and relocation program this year.

The DNR and Dan recommend using a green laser light to detour the geese from your property.

Thank you, Dan, Dave Rago, Jay Krikey, Bob Donald and Jeff Coates, for this process.

Lake Shannon Sportsmen's Club

By Dave Rago

The LSSC is a club with the goal of providing a forum for planning the many social activities for the Lake Shannon community as well as improving the fishing, ecology, and other recreational facilities as decided by the general membership of the club.

HUGE thanks to all the volunteers who staff these activities. Without them, great events like the Fire & Ice Chili Cook Off, Progressive Dinner, Easter Egg Hunt, Float-Up Theater, Lobster Roast, Pontoon Rally, 80's Party, and more would not be possible.

We also provide rentals of tents, tables, and chairs for your graduation, wedding, and other events.

A pontoon trailer is available to club members (with a \$20 annual fee) for moving your pontoon within the Lake Shannon community.

The Lake Shannon Sportsmen's Club would like to extend an invitation to all adult Lake Shannon residents to join or renew your membership for 2023. Annual membership is \$25. Meetings are usually the first Friday of each month (10 months each year) and always start with a social hour.

President – Chad Neff (520) 429-5427
Vice President – Jason Ladd (810) 623-2272
Treasurer - David Rago (734) 395-8000
Secretary - Brad Alesso (310) 251-8099
Asset Manager – Jay Kirkey (810) 813-1988

Please see: <https://sportsmensclub.weebly.com/> for membership details and upcoming events.

We are also on FaceBook - Lake Shannon Sportsmen's Club.

Lake Shannon Water Ski Club

On behalf of the Lake Shannon Ski Club

The Lake Shannon Ski Club is a fun way to meet your neighbors, learn a new skill, and even participate in the ski show.

We meet at 8014 Ore Knob on Monday's and Wednesday's. New families and prior members are welcome.

If you missed the ice cream social, and need more information, you can email our membership coordinator, Lori Saunders at: whizkidz1@charter.net

Planned summer schedule, beginning June 5:

Monday's 6:00-8:00 Open night.

Wednesday's 6:00-8:00 show practice.

Thursday's wakeboard- TBD with sign up, driver pending.

Friday's 12:00 slalom.

Sunday's Jump/family get together.

The show is tentatively August 19.

Please join us and we look forward to seeing you!

<https://www.lake-shannon.com/waterski-club.html>

Lake Shannon Association

October 5, 2022 – General Membership Meeting Minutes (Unapproved)

Draft

Board Members present: Wayne Biernacki, Jeff Coates, Lynne Dodson, Linda Gibbs, Jim Greiner, Scott Mroz, Theresa Rago, Lori Saunders, Jeff Schram, Mary Sutton

Absent: None

Location: Deerfield Township Hall

The meeting opened at 7:01 pm

- The **President** opened the meeting and explained the budget review and outlined meeting etiquette. Since the PA system was not available, she suggested that audience speaking be done from the podium in the front of the attendee area. She said that attendee speeches will be limited to two minutes each and that the meeting must conclude by 9 pm due to agreement with Deerfield Township for use of their meeting room. She said that **Jeff Schram** and **Lynne Dodson** will be time counters during the meeting as in accordance with Robert's Rules of Order.

Approval of Previous Minutes

- Phil Peters moved that Minutes from the July meeting be approved as printed in the Fall Newsletter. The motion was seconded and unanimously approved by attendees without change.

Board Introduction

- The **President** introduced Board members and each member briefly reviewed their residential background on the lake. Mary noted that Glen Fallis had resigned from the Board since the annual membership meeting in July. She recognized him for his hard work and devotion to his position.

Ballot discussion

Ballots have been distributed to members and will be used for both the changes recommended by the Bylaw Review Committee and Mike Laido's Bylaw recommendations.

- The **President** said that Mike's proposals had not been discussed by the Board, therefore; the board does not take a position on them.
- Laura Carr noted the circumstances for the Bylaw change recommendations. She said that the Bylaws were old and contained many grammatical errors, so were generally outdated. She talked about the extensive work that had been done in an attempt to correct and modernize them. She said that there are now three on the committee and they are looking for future direction.
- Laura reminded the membership that the Bylaw Review Committee deferred the vote on the proposed Bylaw changes from the Summer 2022 meeting.
- Dave Rago had a question about the proposed Seawall bylaw change. He said that changes in the section went beyond grammatical corrections and actually changed the meaning and intent of the section. Laura proposed deleting that part of the section.

- Glen Fallis said that the intent of the bylaws is changing due to the changes that the Committee has suggested. He said that some words had been changed along with grammatical corrections.
- The **President** explained bylaw changes due to EGLE requirements.
- Member discussion included comments against the clean-up language as they felt that the language was a substantial change to the bylaw as opposed to only fixing grammatical errors.
- The **President** explained the Board's willingness to deliver all documents to those who don't have Internet access or have problems using the Internet.
- Phil Peters motioned to extend discussion. That motion was seconded. Mary called for a hand vote on the motion and it was defeated.
- Mike Koivisto asked about the trailer storage bylaw. As a member of the Bylaw Committee, he explained his position in favor of it. Allen Herdman proposed that the "registration of vehicles" language in this bylaw be removed. Bob Robb seconded the motion. Allen commented that he had never registered his boat with the state and thought registration was completely unnecessary.
- Steve Boshaw said that he is concerned about vehicles parking on improved land. He motioned that language be removed from proposed Article VIII Section 6 concerning parking on an improved surface.
- **Jeff Schram** proposed changing the language to accommodate Boshaw's concerns with how the bylaw was written. After several attempts at changing the language, the motions did not pass and the Bylaw remained as written to be voted on.

Phil Peters made a motion to extend discussion of bylaw changes for 20 minutes. The President recognized a seconding motion and called for a hand vote. The vote did not pass.

At 8:07, the **President** recognized **Theresa Rago** to discuss the new trash removal contract. Theresa reviewed the process she had used, in combination with Jim Greiner and Frank Mancuso's prior preparation.

- Proposals had been requested from four companies, including the current service firm, Waste Management.
- Three of the companies proposed very high prices and fuel cost surcharges. She said that Dougie's Disposal of Hartland has been selected and that homeowner costs will rise from about \$46 per quarter to \$52 per quarter.
- Trash removal will be returned to the prior Monday schedule and there was general approval of this via applause.
- Dougie's will deliver 96-gallon carts for trash in December. Trash and recycling items will be picked up weekly. Recycling will be collected in the member's chosen container, not supplied by Dougie's without additional cost.
- Waste Management will pick up all of their "WM" containers on December 28.
- Dougie's will collect up to 10 bags of yard waste during the April to November period and excess bags will be billed at \$1 each.
- Credits will be issued to the LSA general fund for members who are gone for greater than three months.
- The agreement with Dougie's will have a three year term and the rates are guaranteed for the entire period.
- Theresa checked with three of Dougie's subdivision customers as well as Tyrone Township and found all of them favorably impressed.

At 8:18, **Jeff Schram** presented the 2023 Budget proposal which had been distributed in the Fall 2022 Newsletter. Jeff first discussed the Budget Detail page.

- Allan Herdman asked how additional costs would be handled that were not previously considered. Jeff said that approved projects would be allocated from the capital improvement budget.
- Jeff said that budgeted funds not spent would be forwarded to next year's budget, as amounts are shown on the page that were forwarded from last year's budget.
- Printing costs have been reduced because of heavier reliance on electronic media. A technology general expense has been added because of new technology needed for Board work, such as Zoom meetings.
- Phil Peters moved for acceptance of the Budget and the President recognized a seconding motion. During discussion Jeff noted that 65 newsletters are being mailed to those requesting hard copies. Theresa said that 35 email messages containing the Newsletter bounced back due to incorrect email addresses.
- Jeff noted the Long Term Financial Planning line item. He said that this consists of "set asides" which are applied to unbudgeted capital improvements. Jeff called for a vote to approve the General Expense Budget and it was unanimously accepted by hand vote.
- Jeff discussed the Special Assessments detail page in the Budget. He noted these are all capital improvements and "set asides" for other projects. Jeff recognized a motion to accept the Special Assessments Budget, as well as a seconding motion, and called for a hand vote. It was unanimously accepted.

Each of the Special Assessment line items were discussed, led by the responsible Board member.

- **Lori Saunders** reported on various Parks and Islands projects.
- Galway Bay Rocking: She has been reviewing this project due to erosion in the area. She plans to shore up the big public area so future maintenance is lower.
- She also discussed the Double Islands Rocking Project.
- Jeff Schram made a motion to approve the Galway Bay project for funding. There was a second. A hand vote was requested and it passed unanimously.
- Phil Peters made a motion to approve the Double Islands Rocking Project for funding. There was a second. A hand vote was requested and it passed unanimously.
- Phil Peters made a motion to accept the Waste Removal budget. There was a second and it passed unanimously.
- Phil Peters made a motion to accept the Weed Control budget. There was a second and it passed unanimously.
- Phil Peters made a motion to accept the Water Testing budget. There was a second and it passed unanimously.
- Phil Peters made a motion to accept the Fish Survey/Stocking budget. There was a second and it passed with some objection.
- Phil Peters made a motion to accept the Mosquito Control budget. There was a second to the motion. A member asked about extra spraying for his long driveway. Scott Mroz said that the contractor can be called on the day of spraying for special requests. Jeff Schram asked for a hand vote and the motion was approved with some objection.
- The Boat Launch funding was discussed and **Scott Mroz** described the maintenance activity for the launch. Jeff Martin mentioned issues. There was a motion to approve funding as well as a second. A hand vote was requested and the motion passed with some objection.

- Fireworks funding was unanimously passed by hand vote.
- **Scott Mroz** discussed the Boat Launch Gate Project. He said it will get rid of cables and clean up the area. It will also improve the appearance and minimize trespassing. He said that the Lake Sherwood Association has already implemented a similar boat launch gate very successfully. He added that otherwise repairs would be very expensive. He reviewed how the gate would work. He said that the budgeted amount of \$19,000 is a “not to exceed” amount. The Project was approved by hand vote with some objections.

Allan Herdman, representing the Lake Shannon Sportsmen Club, introduced his proposal for a fishery survey and water quality test. He said the last survey occurred in 1994, so should be followed up at this time. He asked how the potential \$7500 cost would be funded. Jeff Schram said it would be funded from the Capital Improvement budget. Allen described the background of this proposal and said it would be a one-time survey. He made a motion to fund this proposal. There was a seconding motion. A question about the difference between this proposal and the fish survey and stocking budget and Allan said this one was different because it was more strategic about the kinds of fish that should be stocked. Jeff Schram called for a hand vote and the proposal was approved with some objection.

At 9 pm, arrangements were made to extend the meeting to 9:30.

The President introduced officer reports.

- **Scott Mroz** suggested that members could refer to the Fall 2022 Newsletter for information about launch security and mosquito control. His report was accepted and approved unanimously.
- **Lori Saunders** also referred to the Newsletter for more information about the Galway Rocking project. She announced that the Lake Shannon Legacy project for donations to cover new park benches has started. She said that benches could be donated for \$700 each. She also said that there would be a Lake Shannon Legends project that entails installation of a sign to celebrate a member. The fee will be \$500, of which \$100 will go to the Ski Club. Her report was accepted and approved unanimously.
- **Wayne Biernacki** also referred to his report in the Newsletter. He noted that there are many diseased spruce trees around the lake and that all diseased trees can be removed without a quantity limit. His report was accepted and approved unanimously.
- **Linda Gibbs** said she will be collecting dues and that payment letters will be mailed during mid-January. She said payments must be received by March 31 to qualify for the early payment discount. Her report was accepted and approved unanimously.
- **Theresa Rago** described changes made to the Lake Shannon website. She said new pages have been created to include information about goose control, the roads committee, and the dredging project. She said she is restarting the Dredging Committee as its new chairman. Her report was accepted and approved.
- **Jeff Schram** said he had nothing additional to report. His report was accepted and approved.
- **Jeff Coates** said the lake level will be lowered on schedule starting October 31. He said that he expects problems with the dam and spillway inspection by the state since it happens every five years. He said that he will use the same company for support that Livingston County has used for its dams. There was a question about where water testing has been done. He said that the spots are moved around the lake. He said there have been brief e-coli spikes due to rain water runoff. His report was accepted and approved.

- **Lynne Dodson** said that Theresa Rago had helped with the recent Newsletter and repeated that 35 messages that were sent had bounced back. She wants to correct the email addresses. Her report was accepted and approved.
- **Jim Greiner** said he has no report. His report was accepted and approved.

The President introduced Mike Laido to discuss his proposed bylaw changes that had been distributed to members attending the meeting. He said that he is withdrawing his request for Item 9 that involved Seawalls. Relative to Item 7 covering removal of a bylaw regarding parking on roads, the President said that LSA has jurisdiction over the roads due to the fact that the association was formed under the Summer Resort Act. Relative to Item 8 covering removal of a bylaw that restricted tree removal, Mike said that the issue has become very frustrating. Frank Mancuso spoke about the importance of restricting tree removal to keep the area forested. Mike said that the bylaw is largely unenforceable. Mike discussed Item 10 briefly and covered how it would require 30 signatures to make a bylaw amendment. All his proposals were included in a ballot to be returned and counted after the meeting.

Starting with Mike's comments, many attendees started to leave the meeting and the audience became fairly noisy, making it difficult for the President to govern the meeting. She did announce the results of the first ballot and that both proposals had not passed; the first measure failed, 120-45, and the second failed, 93-72, she said. Unavailability of a microphone made it impossible for most attendees to hear her announcement or even know she was talking.

At 9:27, the **President** attempted to adjourn the meeting. At the same time several in the audience approached the President to be heard and the audience was in general disruption due to the late time, their desire to be heard, and the members leaving the meeting room. However, the President said that it was impossible due to the time that the room needed to be turned over to Deerfield Township. The President made a second attempt to properly adjourn the meeting with a seconding motion, made by Jeff Schram, and the meeting was then adjourned.

**Lake Shannon Homeowners Association
Annual Membership Meeting Agenda**

**June 7th, 2023, Check-In 6:00 PM / Meeting Start Time 6:30 PM
Meeting End Time 9:00 PM**

Location: Deerfield Township Hall

- Call to order
- Review of Fall 2022 LSA General Meeting Minutes
 - Any changes to the minutes
 - Motion to accept the minutes.
- Welcome new members
- Elections for Trustees
- New Business:
 - Bylaw Proposal and vote for permission to list Dean Rd. Properties
 - Officer Reports for Standing and Special Committee

Recording Secretary & Road Chairperson	Jim Greiner
Vice President – 5-year Planning	Theresa Rago
Accounts Payable	Jeff Schram
Accounts Receivable	Linda Gibbs
Corresponding Secretary	Lynne Dodson
Architectural Control	Wayne Biernacki
Launch Security/Mosquito Control	Scott Mroz
Parks and Islands	Lori Saunders
Lake Level/Environment/Weed Control	Jeff Coates

- Q&A
- Next Meeting Date: October 2023
- Motion to Adjourn

Volunteers Needed

Are you interested in serving on the Lake Shannon Board or on a committee?

Being a Board Member Requires:

- 1. The willingness to devote the necessary time to your specific role. Each board member has a specific area of responsibility.**
- 2. A commitment to the board's interest of the community as opposed to a specific or narrow agenda.**
- 3. Skills inherent in being part of a team which includes:**
 - a. Openly and respectfully sharing your perspective.**
 - b. Considering the input and perspective of your fellow board members.**
 - c. Recognizing that, in the final analysis, the board acts as a board and your thoughts on the best solution might be different than the majority.**
 - d. Supporting your fellow board members and the final decisions that are made.**

Be part of your community and be a volunteer.

Board and Committee positions are available.

Lake Shannon Summer 2023 Voting Ballot - Bylaw

This is a yes or no vote on passing the following bylaw:

Article XVII - Acquisition and Disposition of Property

The Board of Trustees, as approved by majority vote of the members of the Association voting thereon at any general, annual, or special meeting, has the authority to acquire real and personal property on behalf of the Association and to sell, mortgage, grant, convey and lease real and personal property owned by the Association. The President of the Board of Trustees is empowered with the authority to execute all documents deemed necessary in effectuating this authority. Any property acquired must be used for general Association purposes only. Excluded from this authority is the sale of islands and parks that are owed by the Association.

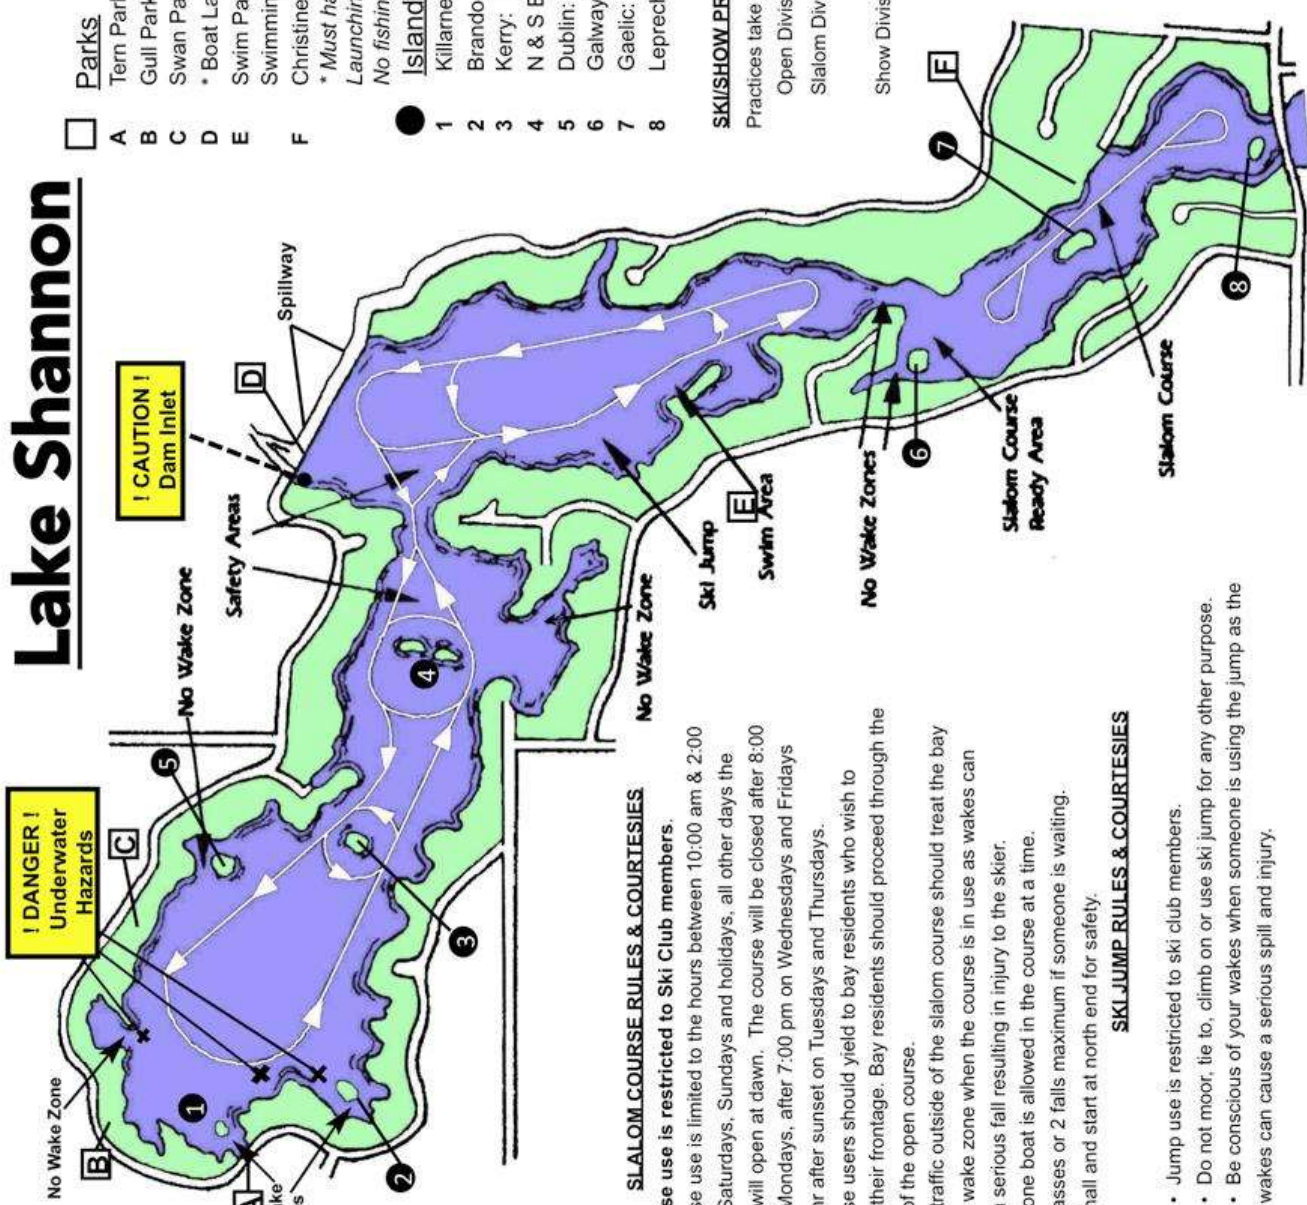

Yes

No

The purpose of this bylaw will allow the Board, **upon approval from the Membership**, to be able to sell or acquire properties, excluding deeded parks and islands. Provides the President of the Board of Trustees the authority to execute all documents necessary to complete the transaction.

In conjunction with this Bylaw the Board will be requesting permission to market the property on Dean Road.

Lake Shannon

- Parks**
- A Tern Park: Fishing, Picnics
 - B Gull Park: Fishing, Picnics
 - C Swan Park: Fishing, Picnics
 - D * Boat Launch
 - E Swim Park: Key Required
 - F Swimming, Fishing, Picnics, Campfire
- Islands**
- 1 Killarney: Nature
 - 2 Brandon: Nature
 - 3 Kerry: Fishing, Picnics, Campfire
 - 4 N & S Blarney: Picnics, Campfire
 - 5 Dublin: Nature, Fishing
 - 6 Galway Bay: Nature
 - 7 Gaelic: Nature
 - 8 Leprechaun: Nature

* Must have boat launch card key to enter.
 Launching of current registered watercraft only.
 No fishing or swimming allowed.

SKI SHOW PRACTICE SAFETY & COURTESY

Practices take place as follows:
 Open Division: Mondays, 6-8:30pm
 Slalom Division: Fridays, alternating am and pm practices
 Show Division: Wednesdays, 6-8:30pm

- Be conscious of your wakes when Club members are practicing (especially pyramid acts) as the wakes can cause a serious spill and injury.
- Please pay special attention for skis and skiers in the water in the practice areas.
- Your cooperation is appreciated. It is very important to ensure the safety of our skiers. We have skiers of all ages participating.

MAY 2016

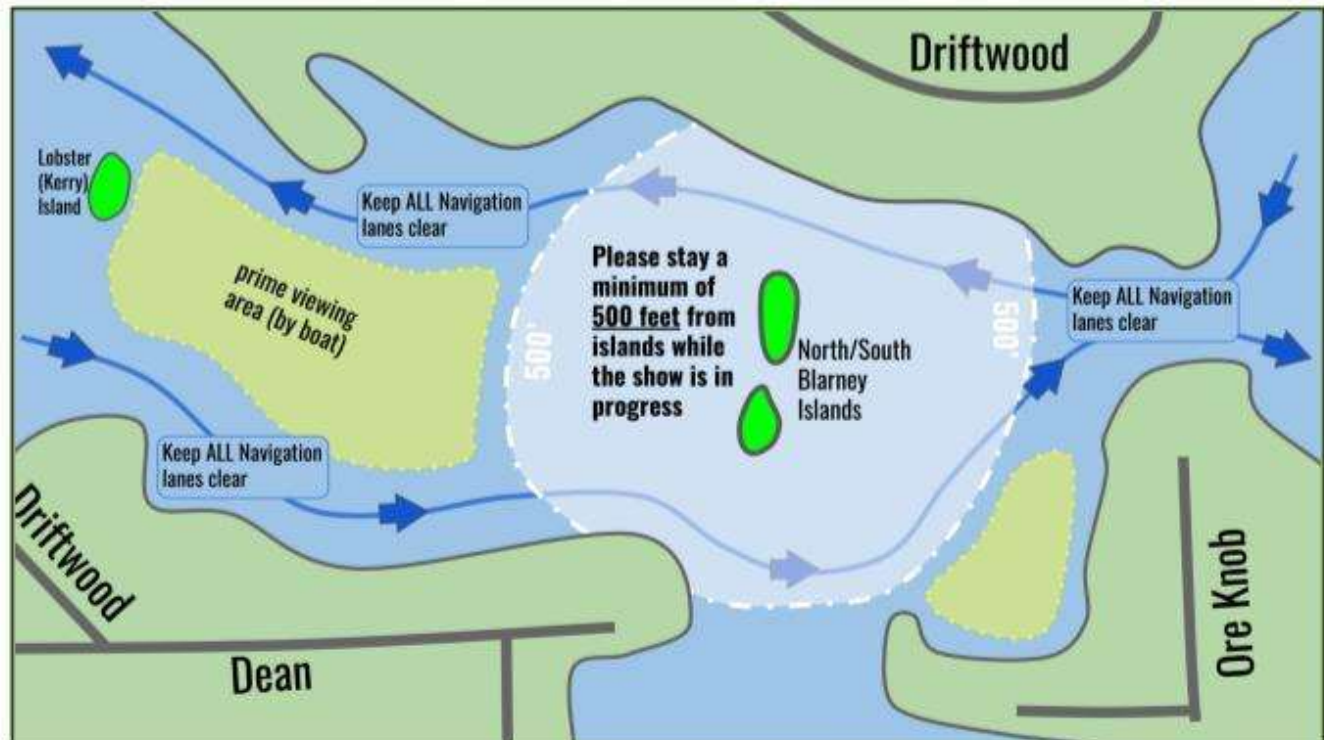

SLALOM COURSE RULES & COURTESIES

- Course use is restricted to Ski Club members.
- Course use is limited to the hours between 10:00 am & 2:00 pm on Saturdays, Sundays and holidays, all other days the course will open at dawn. The course will be closed after 8:00 pm on Mondays, after 7:00 pm on Wednesdays and Fridays and ½ hr after sunset on Tuesdays and Thursdays.
- Course users should yield to bay residents who wish to access their frontage. Bay residents should proceed through the center of the open course.
- Boat traffic outside of the slalom course should treat the bay as a no wake zone when the course is in use as wakes can cause a serious fall resulting in injury to the skier.
- Only one boat is allowed in the course at a time.
- Six passes or 2 falls maximum if someone is waiting.
- Marshall and start at north end for safety.

SKI JUMP RULES & COURTESIES

- Jump use is restricted to ski club members.
- Do not moor, tie to, climb on or use ski jump for any other purpose.
- Be conscious of your wakes when someone is using the jump as the wakes can cause a serious spill and injury.

Lake Shannon Association Fireworks Observation Guide (2023)

Hello fellow Lake Shannon Residents, Family and Guests. We welcome you to the lake on Saturday July 1, 2023 for what we hope will be a beautiful day for a Fireworks Celebration. If this is your first time on the lake and if you are planning to view the show from your boat, there are a few recommendations we would like you to consider for the courtesy and safety of all of our residents and friends.

- Please follow safe boating guidelines and maintain a counterclockwise flow around the lake - particularly Double Blarney Islands where the fireworks show will take place.
- Please maintain a **minimum of 500 to 600 feet** from the islands during the fireworks show. If boats encroach in this area, the pyrotechnic team reserves the right to cancel the show at any time. So, out of courtesy for us all, please ask your family and guests to keep a safe distance from the islands.
- Please follow Michigan Boating Rules and Regulations and stop the use of Personal WaterCraft prior to sundown (9:17pm)
- Also please keep the proper safety equipment on board and use Navigation Lights as soon as daylight starts to fade.
- Please keep all navigation lanes clear when you drop anchor - some suggested viewing sites are shown on the map above.

Thank you in advance for being careful and courteous! **Please enjoy the show!**

****This notice is required for each Lake/Pond resident, to be distributed between 7 - 45 days prior to first treatment (per EGLE rules)****

TREATMENT NOTICE

RESIDENTS IN THIS AREA ARE PLANNING TO HAVE THE WATERS IN THIS AREA TREATED WITH HERBICIDES AND ALGAECIDES FOR CONTROL OF AQUATIC WEEDS AND/OR ALGAE.

This notice is being circulated as required by the Environment, Great Lakes & Energy (EGLE) rules. A permit for the treatment has either been secured or will be secured from EGLE before the work is begun. In some cases, a permit is not required.

You are receiving this notice if you are in the proposed treatment area, or if you are within 100 feet of the proposed treatment area. In some cases, we also provide this notice to persons in adjacent subdivisions as an informational courtesy to advise persons who may have beach rights but are not lakefront residents.

We usually work with groups of homeowners or their elected representatives through homeowners' associations, or with the owners of apartment or condominium units. Please try to contact any of these in your situation if you have any questions about the proposed treatment plan.

Aqua-Weed Control, Inc. typically performs two types of treatments: algae control and weed control.

Algae Control - If we are doing only an algae control treatment using only copper-based products then no water use restrictions apply. We will post the shoreline with yellow signs informing you of this work as required by EGLE.

- Lakes – Typically lake shorelines are treated twice during the summer.
- Ponds - Expect several algae control treatments during the summer beginning in late April thru September.

Weed Control / Water Dye - If we are treating for weeds, or using blue dye, or using some non-copper algae control products then there are restrictions on the use of the water, and we will post the shoreline with yellow signs before these products are applied to the water body as required by EGLE.

We treat each water body according to a schedule or seasonal plan worked out between the persons in charge and an aquatic manager. A typical plan will include multiple treatments from May thru August and possibly September. However, due to the differences in season plans and the uncertainty of weather, please watch your shoreline for the posting of the yellow signs throughout the summer.

Typical lake weed control treatment patterns:

- If your lake is to be treated with Fluridone then you can expect treatment in late April or early May and then again in mid May.
- If your lake is to be treated for weeds using other herbicides, then you can expect two treatments a summer. The first being in late May or early to mid June. The second application typically is done in mid to late July or early August depending on weed growth patterns. In a few cases a third touch-up weed application may be required.
- Ponds are typically treated for weeds twice each summer.

IN MOST CASES YOUR WATER BODY WILL BE TREATED MORE THAN ONCE EACH SEASON; CHECK THIS WITH YOUR ASSOCIATION.

The posted signs will indicate the date of the treatment, the product name, the active ingredient, and any restrictions as to the use of the water for swimming, watering lawns and the consumption of fish taken from these waters. We use NEW SIGNS for each treatment.

When more than one product is used, the restrictions longest limits will be posted. IF YOU HAVE ANY QUESTIONS PLEASE CONTACT YOUR HOMEOWNERS ASSOCIATION OR NEIGHBORS WHO ARE IN CHARGE OF THE TREATMENT OR YOUR APARTMENT OR CONDOMINIUM MANAGER. If they cannot answer your questions, we can be reached at the number on the other side of this notice.

Only products which have been registered for use in the aquatic environment by the Michigan Department of Agriculture and the US Environmental Protection Agency are used.

We anticipate using one or more of the products listed. Please be aware of the restrictions on each product. If EGLE changes any restrictions, they will be noted on the signs we post.

PRODUCTS & RESTRICTIONS: (Information below is from product labels. When 2 or more labels exist for a single active ingredient the most stringent information is provided)

Diquat Dibromide: Do not use the treated water for swimming for 24 hours (EGLE restriction). Do not use treated water to irrigate turf or non-food crops for a period of three [3] days after treatment. Do not use the treated water for watering food crops, animal watering (farm stock – not incidental drinking by a domestic pet) or drinking purposes for a period of five [5] days after treatment. There is no restriction on fish consumption. Diquat dibromide is the active ingredient. *No swimming restriction exists on the federal label of this product.* Common trade names for this product: Reward, Tribune AquaStrike (Diquat + Endothal).

2,4-D (ester and amine): Do not use the treated water for swimming for 24 hours. Do not use treated water for irrigating plants, mixing sprays for agricultural or ornamental plants, watering dairy animals, or domestic water supplies for 21 days. "Irrigation" includes watering gardens –however it does NOT include established grasses. Domestic use means using lake water inside your house. There is no restriction on fish consumption. 2,4-D is the active ingredient. Common trade names for this product: Navigate, Sculpin G, Renovate Max G (also contains Triclopyr)

Triclopyr: Do not use the treated water for swimming for 24 hours (EGLE restriction). Do not use treated water for irrigation of any plants except turf grass for 120 days or until the active ingredient has dissipated below a non-detectable level as determined by water testing (usually after 2 weeks). This restriction does not apply to established turf grass watering. There is no restriction on fish consumption. Triclopyr is the active ingredient. *No swimming restriction exists on the federal label of this product.* Common trade names for this product: Renovate 3, Renovate OTF, Renovate Max G and Navitrol. (Note: Renovate Max G also contains 2,4-D)

Endothal: Do not use treated water for swimming for 24 hours (EGLE restriction). Endothal is the active ingredient in each of these products. *No swimming, fishing or watering restrictions exist on the federal label of this product.* Common trade names for this product: Aquathal-K, Super Aquathal-K, Hydrothol-191 (liquid and granular)

Fluridone: Do not use the treated water for swimming for 24 hours (EGLE restriction). It is suggested that lawn and garden watering be restricted from 7 to 30 days at the extreme. The suggested number of days depends on the rate applied and whether you are on a lake or canal and the type of irrigation. When parts per billion (PPB) concentrations of fluridone reach 5 PPB or less there are NO irrigation restrictions. Established turf and tree irrigation restrictions expire (NO restriction) at 10 PPB or less. Most fluridone applications permitted in Michigan are applied at 6 PPB or less! The sign we post when we treat will give the details for your area. Fluridone is the active ingredient. There is no restriction on fish consumption. *No swimming restriction exists on the federal label of this product.* Common trade names for this product: Avast!, Sonar, SonarOne, Sonar Genesis

Water Dye: Do not use the treated water for swimming for 24 hours (EGLE restriction). No restriction for fishing and watering. Organic dye (food grade) is the active ingredient. *The label restriction for swimming is "several hours" after application or after even mixing throughout the water body.* Common trade names for this product: Cygnet Select, Cygnet Extreme, Pure Blue, Paradise Blue.

Copper based algicides: NO WATER USE RESTRICTIONS. Copper is the active ingredient. Informational posting only. Common trade names for this product: Aligare Argos, Copper Sulfate, Cutrine (Plus,Ultra), Captain (XTR), K-Tea, Symmetry, SeClear, SeClear G, F-30.

Copper based herbicides: Do not use the treated water for swimming for 24 hours (EGLE restriction). Copper is the active ingredient. No restriction for fishing and watering. *No swimming restriction exists on the federal label of this product.* Common trade names for this product: Nautique, Komeen, Harpoon (liquid and granular), Current.

Sodium Carbonate Peroxyhydrate: No water use restrictions. The active ingredient is a strong oxidizer. Common trade names for this product are: Green Clean PRO, Green Clean Granular, PAK 27, Phycomycin.

Glyphosate: Do not use the treated water for swimming for 24 hours (EGLE restriction). No restriction for fishing and watering. The active ingredient is Glyphosate. *No swimming restriction exists on the federal label of this product.* Common trade names for this product: ShoreKlear, ShoreKlear-Plus, Aqua-Star, Glyphosate 5.4, Aquapro, Aquaneat.

Imazamox: Do not use the treated water for swimming or irrigation for 24 hours (EGLE restriction). No restriction for fishing and watering. The active ingredient is Imazamox. *No swimming restriction exists on the federal label of this product.* Common trade names for this product: Clearcast, Top Deck, Castaway.

Flumioxazin: Do not use the treated water for swimming or irrigation for 24 hours (EGLE restriction). Lawn and garden watering is restricted for 1 day after treatment. Do not use the treated water for watering food crops, animal watering (farm stock – not incidental drinking by a domestic pet) or drinking purposes for a period of five [5] days after treatment. No restriction for fishing. The active ingredient is Flumioxazin. *No swimming restriction exists on the federal label of this product.* Common trade names for this product: Clipper, Propeller, Schooner, Flumigard.

Florpyrauxifen-Benzyl: Do not use the treated water for swimming for 24 hours (EGLE restriction). Do not use treated water for irrigation of any plants except turf grass for 14 days or until the active ingredient has dissipated below a non-detectable level as determined by water testing (usually after 2 weeks). This restriction does not apply to established turf grass watering. There is no restriction on fish consumption. The active ingredient is Florpyrauxifen-benzyl. *No swimming restriction exists on the federal label of this product.* Common trade names for this product: ProceltaCOR EC

Carfentrazone: Do not use the treated water for swimming for 24 hours (EGLE restriction). Do not use treated water for irrigation of any plants except turf grass for 14 days if more than 20 % of the waterbody was treated. This restriction does not apply to established turf grass watering. Do not use the treated water for animal watering (farm stock – not incidental drinking by a domestic pet), or drinking purposes for a period of one day after treatment. There is no restriction on fish consumption. The active ingredient is Carfentrazone. *No swimming restriction exists on the federal label of this product.* Common trade names for this product: Stingray.

This notice contains information that is the latest available at time of printing. We update this notice as required to keep all data current. Updated versions of this notice and product labels are available at our website. (www.aquaweed.com)

**Lake Shannon Annual Association
Membership Meeting Announcement**

Date: Wednesday, June 7, 2023
Time: 6:30 P.M. (check-in starts at 6:00 P.M.)
Place: Deerfield Township Hall
4492 Center Road, Linden MI 48451
